Use this list to display all the publications that you have authored.

Adding Publications to this list
You can add publications by searching Web of Science™, searching Web of Science™ Core Collection, using EndNote™ or uploading a file. To add publications, click the Add link located in the menu on the left-hand side of your screen, or by clicking on the Add Publications above.
*Note: Access to Web of Science and Web of Science Core Collection are based on the entitlements of the computer where you are accessing ResearcherID.

Please remember to only add publications that you have authored to this list. This list will be used by Web of Science Core Collection to create a Distinct Author Set, which is a set of papers that will be associated with your name, and your ResearcherID number will be displayed on the Web of Science Core Collection record. This allows Web of Science Core Collection users who find one of your papers on this list to find all of the other papers on this list.

Making the list public or private
You have the ability to make your "My Publications" public or private. If public, then visitors of ResearcherID can see your scholarly output, and your list will be sent to the Web of Science (click here for more information). Click on the Manage Profile button at the top-right corner of the page and select the Publication Lists tab to change the privacy settings of your data.
